Regulatory compliance and governance advisory (PDPA, MAS TRM, etc.)

MINIMISING DIGITALISATION RISKS FOR SMES

How we helped them:

- Integration of cybersecurity basics into daily business routines to respond and protect against cyber threats
- Aligning digital initiatives with key security and governance priorities to build stakeholder trust.
- Reinforced cybersecurity culture among board members and staff with PDPA and security awareness training

How we helped them:

- Improved oversight of supply chain security and other emerging technology risk
- Increase cyber preparedness, emergence response and crisis management with business continuity management training
- Continuous regulatory compliance and greater defence against sophisticated cyber threats
