## SIMPLIFYING DATA PROTECTION AND PDPA COMPLIANCE FOR CLIENTS

### How we helped them:

- Strengthened cybersecurity culture among board members and staff with PDPA and security awareness training
- Boosted overall security posture with data security audits for PDPA compliant processes on personal data handling, processing, and protection

### How we helped them:

- Enhanced accountability, better overall reporting, decision-making and operational performance optimisation with data mapping workshops and data inventory documentation
- Continuous PDPA compliance and greater defence against growing data breach threats with periodic internal audits
