## CUSTOMER SUCCESS STORY

◀ Scan & Watch

### Driving Car Club towards the modern workplace

"Going beyond the front-facing processes, we see ourselves working closely with Stone Forest IT to introduce Microsoft's solutions to our back-end operations like finance and accounting to further improve efficiency. Subsequently, as we set our sights on the regional markets, we hope to integrate our entire business with the help of technology and to get our regional teams on board with these improved solutions as well to further accelerate Car Club's growth,"

– Mr Gary Ong, Managing Director of CarClub.
