

Risk is always at the forefront of my mind

## Incident Response (IR) Readiness Assessment

### What is IR Readiness Assessment?

Our cybersecurity advisory and incident response experts assist you in IR Readiness Assessment to augment your cyber defence capabilities and determine your business's current state of preparedness against internal and external threats. We identify your level of risk exposure, highlight any gaps and assist in strengthening your business resilience. We also evaluate, validate and enhance your incident response plan with the security needs of your business in mind.

#### When do you need an IR Readiness Assessment?

- SECURITY**  
  
 How robust is your IT system against cyberthreats?
- COMPLIANCE**  
  
 Do you meet compliance requirements?
- CONTINUITY**  
  
 Need to reduce business downtime cost-effectively?

#### Our team will help you to:

- Assess**  
 · Assess your IT security maturity level and gaps
- Review**  
 · Understand how the gaps will impact your business operations  
 · Identify potential cyber vulnerabilities
- Actionable Insights**  
 · Recommend cost-effective solutions to strengthen your cyber defence posture

The IR Readiness Assessment will culminate in an overview report that summarises insights and actionable recommendations.
